## IRA Financial Group "Wallet Control" IRA Solution to Provide Self-Directed IRA Cryptocurrency Clients with Private Key Security & Low-Cost Exchange Options

*IRA Financial Group provides self-directed IRA clients with total control over their cryptocurrency wallet and the ability to purchase any digital assets on their own with low commissions*

NEW YORK (PRWEB) January 23, 2018

IRA Financial Group, the leading provider of self-directed IRA LLC and Solo 401(k) Plans, is excited to announce the launch of its "Wallet Control" IRA solution for cryptocurrency investors. With IRA Financial Group's "Wallet Control" **Bitcoin self-directed IRA** and Solo 401(k) plan solution, bitcoin and cryptocurrency investors will be able to open a cryptocurrency exchange account at any exchange and control the wallet associated with the retirement account owned cryptocurrency. IRA Financial Group clients will be able to control the costs associated with the purchase and sale of cryptocurrencies and will gain the added security of holding the cryptos on the wallet of their choice. "We believe that cryptocurrency investors should always maintain control over their retirement account owned cryptocurrencies and should control the wallet and private key associated with the digital asset," stated Adam Bergman, a partner with the IRA Financial Group.

According to Mr. Bergman, many cryptocurrency investors are looking for a cost effective option for using retirement funds to purchase bitcoins and other cryptocurrencies while gaining the ability to control the wallet and private key.

IRA Financial Group & IRA Financial Trust Company's **Bitcoin IRA** platform with checkbook control will allow retirement account holders to buy, sell, or hold Bitcoins and other cryptocurrency assets and generate tax-deferred or tax-free gains, in the case of a Roth IRA. The primary advantage of using a self-directed IRA LLC to make Bitcoin investments is that all income and gains associated with the IRA investment grow tax-deferred or tax-free in the case of a Roth IRA.

IRA Financial Group & IRA Financial Trust Company has partnered to offer a total control private key Bitcoin IRA LLC platform for cryptocurrency investors. With IRA Financial Group's private key cryptocurrency solution, the retirement account holder have total control over his or her cryptocurrencies and can hold them through an exchange or via a digital or hardware wallet. No need to pay commissions and account value fees to IRA custodians, with IRA Financial Group's "Wallet Control" IRA one can take control of their cryptocurrencies. IRA Financial Group's **cryptocurrency self-directed IRA** LLC is an IRS approved structure that allows one to use their retirement funds to make Bitcoin and other investments tax-free and without custodian consent.

IRA Financial Group is the market's leading provider of self-directed retirement plans. IRA Financial Group has helped thousands of clients take back control over their retirement funds while gaining the ability to invest in almost any type of investment, including real estate and cryptocurrencies without custodian consent.

The IRA Financial Trust Company, a self-directed IRA custodian, was founded by Adam Bergman, a partner with the IRA Financial Group. Mr. Bergman is a leading expert on the taxation of retirement funds and has authored multiple articles on how to use a self-directed IRA to buy cryptocurrencies.

Adam Bergman, IRA Financial Group partner, has written six books the topic of self-directed retirement plans, including, "The Checkbook IRA", "Going Solo," Turning Retirement Funds into Start-Up Dreams, Solo 401(k) Plan in a Nutshell, Self-Directed IRA in a Nutshell, and in God We Trust in Roth We Prosper.
