July 7, 2015 2:00 PM EDT
New York, NY (PRWEB) July 07, 2015

On July 7, 2015, [Adam Bergman](#), a partner with the IRA Financial Group, was interviewed on four Fox Business News Radio affiliates about the impact of the Greek financial crisis on US retirement accounts. Mr. Bergman spoke about the current financial environment in Greece and how the crisis can impact Europe and especially the United States. Mr. Bergman mentioned how the Greek financial crisis has lead to a surge of interest in the Self-Directed IRA and Solo 401(k) Plan as a vehicle for retirement account holders looking to better diversify their retirement funds and buy hard assets, such as real estate and precious metals.

Using IRA Financial Group's self directed IRA LLC with "checkbook control" solution to make real estate investments offers a number of very interesting investment opportunities, including the ability to diversify ones retirement portfolio with real estate, precious metals, and other alternative investment options.

The IRA Financial Group was founded by a group of top law firm tax and ERISA lawyers who have worked at some of the largest law firms in the United States, such as White & Case LLP, Dewey & LeBoeuf LLP, and Thelen LLP.

IRA Financial Group is the market's leading "checkbook control" Self Directed IRA Facilitator. IRA Financial Group has helped thousands of clients take back control over their retirement funds while gaining the ability to invest in almost any type of investment, including real estate without custodian consent.
