IRA Real Estate Investors Outperforming Wall Street in 2015 Triggering Strong Interest in Self-Directed IRA, According to Recent IRA Financial Group Client Survey

Strong housing market helping many self-directed IRA investors generate higher returns than Wall Street

New York, NY (PRWEB) September 22, 2015

IRA Financial Group, the leading provider of self-directed IRA LLC solutions, announces the finding of its client survey, which showed that a strong percentage of **self-directed IRA** clients have been happy with their decision to purchase real estate using retirement funds. IRA Financial Group representatives spoke with a sampling of real estate IRA clients that purchased property between 2010 and 2014 with their self-directed IRA and found that a solid majority of IRA LLC clients have been able to outperform Wall Street with their real estate investments. "A large percentage of our Self-Directed IRA clients have been able to diversify their retirement portfolio against a rocky stock market by making real estate investments," stated Jacky Ospina, an IRA retirement specialist with the IRA Financial Group. "The use of a self-directed IRA to buy real estate has helped generate strong tax-free returns for a large number of our clients, which has been a great benefit in light of a falling stock market in 2015," stated Ms. Ospina.

IRA Financial Group's Self-Directed IRA for real estate investors, also called a **real estate IRA** with checkbook control, is an IRS approved structure that allows one to use their retirement funds to make real estate and other investments tax-free and without custodian consent. The Self-Directed IRA LLC involves the establishment of a limited liability company ("LLC") that is owned by the IRA (care of the Roth IRA custodian) and managed by the IRA holder or any third-party. As manager of the IRA LLC, the IRA owner will have control over the IRA assets to make traditional as well as non-traditional investments, such as real estate.

Using IRA Financial Group's self directed IRA LLC with "checkbook control" solution, retirement account investors are able to buy real estate and generate tax-deferred or tax-free gains in the case of a self-directed Roth IRA.

The IRA Financial Group was founded by a group of top law firm tax and ERISA lawyers who have worked at some of the largest law firms in the United States, such as White & Case LLP, Dewey & LeBoeuf LLP, and Thelen LLP.

IRA Financial Group is the market's leading "checkbook control Self Directed IRA Facilitator. IRA Financial Group has helped thousands of clients take back control over their retirement funds while gaining the ability to invest in almost any type of investment, including real estate without custodian consent.
