Fear of Government Shutdown Causing Retirement Investors to Turn to Self-Directed IRA, According to IRA Financial Group Survey

Risk of a Government shutdown and debt ceiling attracting retirement investors to the real estate IRA and away from Wall Street

GlobeNewswire IRA Financial Group October 14, 2013 8:53 AM

MIAMI, Fla., Oct. 14, 2013 (GLOBE NEWSWIRE) -- via PRWEB - IRA Financial Group, the leading provider of self-directed retirement solutions, such as the self-directed IRA LLC and solo 401(k) Plan, has seen an increasing number of retirement investors looking to make alternative investments with their retirement funds, including real estate, in light of a government shutdown and its potential impact on the equity markets, according to a recent survey.

"Retirement investors have been recently turning their attention to looking for safe alternatives to invest their retirement funds in light of the potential government shutdown and its potential impact on the stock market," stated Adam Bergman, a tax attorney with the IRA Financial Group. "We have seen a surge in new self-directed IRA and Solo 401k clients looking to make alternative investments with their IRA and 401(k) funds, including real estate to protect themselves from the impact of a government shutdown" stated Mr. Bergman, a tax attorney with the IRA Financial Group.

The primary advantage of using a Self Directed IRA LLC or Solo 401(k) Plan to make investments is that all income and gains associated with the IRA investment grow tax-deferred.

Using IRA Financial Group's self directed IRA LLC or Solo 401(k) Plan with "checkbook control" solution to make real estate investments offers a number of very interesting investment opportunities, including the ability to diversify ones retirement portfolio with real estate, precious metals, and other alternative investment options. "By using IRA or 401(k) funds to make real estate IRA investments, retirement investors can better diversify their retirement assets from the risks associated with a government shutdown," stated Mr. Bergman. With IRA Financial Group's self directed IRA LLC or Solo 401(k) Plan solution, retirement investors now have a safe and viable option for better protecting and diversifying their retirement funds from a vulnerable stock market," stated Mr. Bergman

The IRA Financial Group was founded by a group of top law firm tax and ERISA lawyers who have worked at some of the largest law firms in the United States, such as White & Case LLP, Dewey & LeBoeuf LLP, and Thelen LLP.

IRA Financial Group is the market's leading "checkbook control Self Directed IRA Facilitator. IRA Financial Group has helped thousands of clients take back control over their retirement funds while gaining the ability to invest in almost any type of investment, including real estate without custodian consent.

Smartphone patent was exposed as completely futile

It happened again — a handset sales injunction resulting from a patent infringement ruling has been overturned. This time the drama played out in the UK, where Nokia's attack on HTC led to the sales injunction of the HTC One mini handset. And like clockwork, the sales ban was stayed by the Court
